

10 MILE PLEASURE RIDE 10 miles Ribbons: Orange/Green/White

You will be the very first to enjoy our new Lollipop Loop! We hope you think it is as beautiful as we do!

The trail follows with the R/W/B trail until just after the cattle guard. Keep going to a turn just before a large sign. Follow the road/trail to a gravel road. Turn left. Travel about a mile up the gravel road. Turn right and go around a green gate. Follow the ribbons up and over a ridge. Turn left off a track into the woods. The trail ends at a dirt road. Follow out to the gravel road. Turn left, then turn right to return to camp.

As a true Lollipop, the way out and back in are the same so ribbons will be on both sides of the trail. Keep the ribbons on your right shoulder to travel in the direction you want to go. Out -0 ribbons on the right : In-ribbons on the right. ALWAYS KEEP RIBBONS ON YOUR RIGHT.

When the trail turns there will be three ribbons warning you of the change, another ribbons showing you the direction you need to turn and several more ribbons just beyond the turn to reassure you. There will be fewer ribbons when there is nowhere to go but straight ahead.

Let your horses drink at every opportunity. Do not ride away from another rider if their horse is drinking.

Leave gates as you find them. If a gate needs to be opened and closed wait till the person handling the gate is finished and ready to ride.

Be kind to the volunteers and enjoy the day!

VET CHECK INFO

Make sure you get an "in time", "down time" and "out time". The "in time" marks when you enter the vet check and is called out by a pulse taker to the timer: it starts the clock ticking for your down time (horse must pulse to 60 within 30 minutes of coming in).

When your horse pulses down the timer calls out your "down time" to the timer and the timer calls back your "out time". The pulse taker will write your down time and your out time on your rider card.

You may then go to the vet to be checked out and released. You may choose to feed your horse before visiting the vet, but **BE SURE TO GO TO THE VET TO BE PASSED AFTER YOU GET YOUR DOWN TIME!**

When your hold time approaches, check in with the timer who will check you off the list and release you to proceed down the trail.
